Bird watching

Watching bird is rather fun.
I will show you how is done.
I will tell you where and when.
Just take a notebook and a pen.

Look there on top of the tower
It has some stocks at this hour.
Over the river, there's an eagle
a dove, a sparrow, and a seagull.

Those trees are the best
to see a Raven in its nest.
With luck, we'll see a quail
It has got a very short tail.

Some parrots like to fly in a pair
to have company up in the air.
The Pelicans catch their fish
and they eat it as they wish.
